

## **Clutter Comes And Clutter Grows**

*by Louie Heseemann*

Like the ocean ebbs and flows, clutter comes and clutter grows.

When you've got too much of it, it really shows. Like poor old Pinocchio's famous nose.

Think back to those happy carefree days when you "got by" on less, if you can.

Like the month Jim travelled with just a few items all the way across Japan.

Then do what you got to do to make a lighter more carefree you.
